## Sustainability philosophy

Human are inherently connected to the nature and clothing are regarded as the second skin. Inspired by the notion Cute Dress Industry Ltd. is aspired to develop a new way of doing business. The fashion industry globally known as one of the most polluting industry of the world. It consumes ground water, emits 10% of the global greenhouse gas and ultimately generates huge wastes both pre and post consumers. Such resource-heavy supply chain may seem impossible to be sustainable, but Cute Dress sees it differently. Our business philosophy is built on the triple bottom line People, Planet and Profit. Therefore, we have integrated sustainability as our guiding principle in our mainstream and core of existence.

## Sustainable solution

We are a sustainable apparel manufacturing company in Bangladesh provides package solution to make your product certified and traceable as 'sustainable product' through several standards like GOTS, GRS, OCS, RWS, Oeko-tex, BCI Cotton, US Cotton etc. We also have alternative solutions for conventional products to ensure sustainability. We are one of the world's top ten Platinum rated LEED certified green factory; audited by ACCORD, amfori BSCI and recognized by UNDP for aligning with SDGs.
